

[What does this page do](#)

Reset App

Step 1: Add Sites Using One of the 2 Methods Below

Method 1: By selection on map

Method 2: Upload a file

Step 2:

Choose Downscale Parameters

Step 3:

Choose Output Preferences

Step 4:

Generate Results

Step 5: Preview Downscaled Data

Step 6:

Download Downscaled Data

How to use:

- 1 Add area of interest by clicking/drawing on the map or uploading a file
- 2 Click on **Choose Downscale Parameters**, select wanted parameters and click **Apply**
- 3 Click on **Choose Output Preference**, choose output format (CSV or GEOTIFF) and resolution
- 4 Click on **Generate Results** to launch to downscale process
- 5 (Optional, see below)
- 6 Click on **Download Downscaled Data**
- 7 To start again, click on **Reset App**

Step 5: CSV Output

 climr
